

DINESH

Data Analyst || Data Engineer

Gurugram, Haryana, India | dineshprofessional25@gmail.com | 8920114581 | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Motivated data enthusiast with an MCA and strong foundation in business analytics, data interpretation, and decision-making. Proficient in Excel, SQL, Python, Power BI, and data visualization for extracting actionable insights. Eager to contribute to data-driven strategies while growing expertise in advanced analytics and BI tools.

TECHNICAL SKILLS

- **Languages & Framework:** Python, SQL, Pandas, NumPy
- **Databases & Platforms:** MySQL, Google Sheets, MS Excel, Snowflake
- **BI & Reporting Tools:** Power BI, Tableau, Excel (Advanced Functions, Pivot Tables, X-LOOKUP, V-LOOKUP)
- **Data Analysis & Data Engineering:** Data Cleaning, Data Visualization, Trend Analysis, Data Pipeline
- **Soft Skill:** Analytical Thinking, Problem-Solving, Communication, Team Collaboration, Leadership

EXPERIENCE

Analyst - Concentrix, Gurugram [Apr 2024 – July 2, 2025]

- Collected, cleaned, and analyzed operational data using Excel, SQL, and Power BI to support business decision-making.
- Conducted data validation and reporting to ensure accuracy and consistency of business metrics across internal system.
- Conducted data extraction, cleaning, and reporting using Excel and Internal tools for operational insights

PROJECTS

E-commerce Sales Data Analysis | Excel Dashboard Project

[PROJECT](#)

- Built an interactive dashboard analyzing Amazon sales data to track revenue trends, shipment performance (85%), and regional insights.
- Identified 12% revenue loss from cancellations and uncovered high-cancellation regions (18%) to support operational strategy.
- Average Delivery time 3 days
- Maharashtra is the highest revenue state

Insurance Data Analysis PROJECT

[PROJECT](#)

- Analyzed claim cost trends and identified peak periods in January—February followed by stabilization throughout the year.
- 2025 accounts for the majority of claim payouts (~₹393M).
- Found that 80% of claims were first-time claims, with minimal repeat claims
- Detected that policy distribution was concentrated in 3-year tenures (40%)
- Analyzed a loss ratio of 2.06, indicating claims exceeded premium revenue and suggesting pricing adjustments

AdTech Campaign Analysis | Power BI, SQL

[PROJECT](#)

- Cleaned and transformed 120K+ ad records (Impressions, Clicks, Conversions, Cost, Revenue) using SQL to standardize campaign data.
- Built Power BI dashboards to evaluate campaign KPIs, ROI (25.5%), and marketing spend efficiency (₹315K revenue vs ₹88.9K cost).
- Identified 3 high-click, zero-conversion campaigns, preventing ~15% potential cost leakage.

EDUCATION

MCA (Masters of computer application)

Indira Gandhi National Open University | DELHI | 2021 – 2023

BSC(Honors) Computer Science

University Of Delhi (DU) | DELHI | 2017 – 2020

CERTIFICATIONS

- Freecodecamp – Data Analytics Certificate
- Microsoft (Coursera) – Business Analyst
- Excel Skills for Business
